GAMMA TECH / HOME TECHNOLOGY

# Plan the screen around your room

Full digital feature walls, framed television, and physical concealment.

### How should the wall look between films?

Opal art / full-wall wood or stone imagery / Leon-framed Sony / Samsung / covered TV

### Which artwork or digital material images would you choose?

Bring artwork ideas and wood-grain or stone image references for the complete canvas.

### Where will you watch, and where should the video window sit?

Mark main seats, wall dimensions, portrait or wide format, and daylight priorities.

### How should the room look with the screen powered off?

Include the wall surface, surrounding finishes, and any proposed covering.

### Who is coordinating the plans and construction schedule?

Bring the builder/designer details and the current stage of construction.

Gamma coordinates the supplied display, sound, controls, and installation details.
Final wall proportions and video layouts follow the selected panels and processing.
